Annual Report BScIT 2022-23

The BSc IT program revolves around the field of Information Technology, which is essentially about storing, processing, securing, and managing information. Students seeking career opportunities in IT and software can opt for a BSc IT Program.

Teaching in the IT field includes various traits and techniques that can help people to reach their full potential as learners. Learning and growing beyond conventional education is the need of the hour.

IT department organizes various activities as follows -
